

# SIMPLIFYING THE JOURNEY TO MULTICLOUD WITH INTERCONNECTION

By **2021** at least **50%** of

## GLOBAL GDP WILL BE DIGITISED,

with growth in every industry driven by digitally enhanced offerings operations and relationships.<sup>1</sup>

As enterprises seek to respond to the opportunities presented by the digital economy – and support new, real-time interactions between people, locations and data – traditional on-premise infrastructures are failing to deliver.

## A number of factors are driving the move away from traditional infrastructures

## There are a number of challenges businesses face when transitioning to multicloud

Enterprise consumption of Interconnection Bandwidth is forecast to experience

**7x** growth by 2021<sup>8</sup>

Enterprises connecting to cloud and IT services providers is the fastest growing category of Interconnection, forecast to grow at 98% CAGR

**98%** CAGR through to 2021<sup>9</sup>

## Why Interconnection has the answers

Interconnection is key to overcoming the challenges of migrating to a distributed, multicloud architecture, simplifying the journey and providing an essential building block of the global digital economy.

### The advantages of interconnection are:

### Platform Equinix™: the world's leading Interconnection platform

The world's leading cloud Interconnection platform, Platform Equinix™ has been used by thousands of enterprises to simplify their journey to multicloud.

#### It delivers:

- Direct
- Secure
- High-speed
- Low-latency

Connectivity to all of the world's major cloud providers. 2,500+ cloud providers reside within Equinix facilities.

### AirSpeed: unlocking the power of Interconnection

By leveraging the power of Platform Equinix™, AirSpeed equips you to overcome the challenges associated with multicloud, ensuring that you can realise the full potential of a distributed IT infrastructure.
